DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-6 and 15, drawn to compounds of formula (I) and methods of treating atherosclerosis using a compound of claim 1.

Group 2, claim(s) 7-8, drawn to compounds of formula (II).

Group 3, claim(s) 9, drawn to compounds of formula (III).

Group 4, claim(s) 10-12 and 14, drawn to methods for indicating the presence of or exposure to by measuring the presence of a compound.

Group 5, claim(s) 13 (in part), drawn to methods for indicating the presence of or exposure to by measuring the presence of a compound which is compound 1 which is a benzoic acid.

Group 6, claim(s) 13 (in part), drawn to methods for indicating the presence of or exposure to by measuring the presence of a compound which is compounds 2, 3 and 6 which are pyrans.

Group 7, claim(s) 13 (in part), drawn to methods for indicating the presence of or exposure to by measuring the presence of a compound which is compound 4 which is a sulfonic acid.

Group 8, claim(s) 13 (in part), drawn to methods for indicating the presence of or exposure to by measuring the presence of a compound which is compound 5 which is an acetic acid.

2. The inventions listed as Groups 1-8 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: There is no special corresponding technical feature between groups 1-3. Groups 4-8 are all testing for the presence or exposure to a compound by testing for a different compound. The compounds being tested for between groups 4-8 are different compounds.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
